

The purpose of this document is to guide Supply Chain colleagues through the process of recording incursions onto Highways England Airsweb.

Please note: It is important that the data entered is factual, accurate, and relevant. These reports may be disclosed as part of regulatory monitoring, legal or coronial proceedings. Furthermore, the detail of these reports may inform Safety Alerts, and/or be escalated to the Board and members of senior management.

Data must be reported in accordance with Highways England instruction to Supply Chain via GG 128 within the DMRB:

<https://www.standardsforhighways.co.uk/dmrB/search?q=GG%20128&pageNumber=1>

Please ensure the information recorded is in accordance with GDPR. Please see the privacy statement for reference purposes.

Highways England Airswab Supply Chain Guidance - Step by Step – recording an incursion

The official definition of an incursion into roadworks is “an intentional or unintentional unauthorised entry into temporary traffic management by members of the public or emergency services”. In other words, an incursion is when an unauthorised vehicle or a member of the public enters the roadworks without authorisation.

1. Access AirsWeb by selecting an appropriate link and ‘Login’
2. To enter an event access:

Select ‘**Event Entry**’ from the tiles in the main screen

or

Select ‘**Event Tracking**’ from the left hand side navigation menu

Then select  from the bar at the top of the main screen

3. In the first event entry screen ensure that the correct project is displayed in the dropdown.
