<b>Description of Blue Star Item</b>	<p>The main feature of this dumper is the 180 degree rotating seat and controls to allow for added visibility and reducing plant person interface issues, in addition to this the skip of the dumper swivels 90 degree to avoid excessive movements, a function that similar items of plant do not currently have.</p> <p>This site dumper has a forward/reverse lever mounted on the steering wheel and is supplied with twin screens in the cab for extra visibility while driving and tipping.</p> <p>It has a crab steer mechanism, if needed.</p> <p>There is no need for the operator to leave the cab for loading or unloading.</p> <p>It has two models 7T and 10T.</p> <p>It has a reversing siren for added safety to reduce interface.</p>
<b>Benefits of Blue Star Item</b>	<ul style="list-style-type: none"> <li>• Features a 180 degree rotating seat and controls to allow the operator to face the skip when unloading and have excellent visibility when travelling reducing plant person interface.</li> <li>• For narrow access sites with restricted loading points such as with the verge, the operator can drive the unloaded dumper facing over the skip to the loading area and then drive back to the tipping area facing the other way with an unrestricted view.</li> <li>• The dumper also features all-wheel drive and steer making it more versatile for site operations.</li> <li>• Two speed gearbox, only first gear will operate in reverse</li> <li>• Machine will not operate unless the seatbelt has been fastened</li> <li>• Handbrake must be engaged for all tipping activities</li> </ul> <p>All compartments can be accessed from ground level – reducing risk from working at height when carrying out oil and water checks and general maintenance</p>
