SMP

Project Name:

M4 J3 – 12 Smart Motorway Scheme

Date of Incident:

08/10/2019

Time of Incident:

15:00

Date and Time Information Received:

08/10/2019 @ 15:35

Brief Description of Incident

Location of the incident: Thame Bray Bridge

A delivery ready mix concrete wagon arrived on site at Thames Bray East.

While the working gang were preparing to pour the concrete into a pile, setting up a tremie pipe. The concrete wagon driver took it upon himself to reverse up to the pile location without a banksman/marshal in attendance.

While the concrete wagon was reversing the chute struck a piling operative on the back of his hard hat as he was setting up the tremie pipe

Severity of Injuries / Harm / Damage (give indication of certainty regarding injuries/damage)

No injuries sustained by the piling operative.

Immediate Actions / Current Status

Fully investigation underway.
