

BAM Nuttall management system Safety form

SF511 Good/Best practice feedback

Contract name	M60 Manchester Smart Motorway	
Contract number	BBL0430	
Report author	Mark Lowe	Date: 19/05/16

Description of finding:

Exclusion zone around plant created with high visibility retractable tape. Tapes extend to 9 metres and the units sit on top of road cones. The units are manufactured by skipper www.skipper.com and have multiple additional fixings not just to road cones.

BAM Nuttall management system Safety form

What are the benefits?

The units enable quick and easy establishing of exclusion zones, the tapes are highly visible and remove the need for multiple barriers. The removal of multiple barriers reduces manual handling during establishment of areas, transportation and storage. The skipper units are small and weigh approx. 800g each.

Are there any drawbacks?

Main unit costs £50, dummy/receiver cone top unit costs £25

Where did the idea come from?

Observed on JV project during safety tour
